

## We helped them conquer space and lead time.

When a national distributor supplying a major space exploration end-user started struggling to meet their customer's Nickel 625 tubing needs, that distributor turned to Dover Tubular to manage their mill relationship and the customer supply program. The net result: a reduction in lead time from 26 weeks to 14 weeks and double-digit cost-savings. Reach out to us today to find out how our projects team can help you reduce cost, lead time, and complexity.

## Dover delivers EXACTLY what you need when you need it.

Precision cuts and quality work is what we have built our reputation on. The benefits of cut to length material are reduced scrap lost and decreased machining time. It's a win-win for you.

- We can cut up to 3,000+ sizes of pipe and tube with speed and accuracy.
- We have 6 saws across 2 locations.
- We can take on projects ranging from 1 to 1,000 pieces.
- We can cut everything in stock to deliver exactly what you need, when you need it.

### PRODUCT HIGHLIGHT

## Aluminum Tube or Pipe? Dover can help you decide.

### Why is aluminum a GREAT CHOICE?

Aluminum is the preferred choice for many reasons in the industries Dover Tubular serves, especially as we move towards a greener future.

- Aluminum provides incredible weight savings, almost 3:1 compared to stainless steel!
- Aluminum has much greater thermal conductivity than stainless steel. This is one of the reasons it's a preferred material for home appliances, automotive, and aerospace applications.
- Aluminum is fairly "soft" and easier to cut/form to finished applications.
- Aluminum is a great conductor of electricity.

### What INDUSTRIES use Aluminum Tube and Pipe?

- Automotive components
- Transportation
- Oil and gas
- Marine applications
- Appliance manufacturing
- Construction

### Why is DOVER THE RIGHT CHOICE for your aluminum needs?

- Great product variety and inventory (core and in-between sizes)
- Competitive prices and quality standards in an increasingly uncertain world.
- Assurance that materials are certified to the most stringent commercial and aerospace specifications to meet a wide berth of customer demands.
- Cutting is available on all sizes.

### What aluminum products does Dover offer?

#### TUBE:

- Seamless Drawn Tubing
- Seamless Extruded Tubing

#### PIPE:

- Seamless Extruded Pipe

As a master distributor, Dover specializes in offering depth and breadth of aluminum tube and pipe inventory to meet customers needs. [CLICK HERE to read more about why aluminum might be the right choice for you.](#)
